ALEX RAJDHAMI

IT Support | Junior Developer | BSc (Hons) Computer Science

Ashford, Surrey • alexrajdhami611@gmail.com • linkedin.com/in/alexrajdhami • github.com/AlexRajdhami

PROFILE

Computer Science graduate (BSc Hons, University of East London, 2026) looking for an entry-level IT support, service desk or junior developer role. I build and deploy full-stack web apps with Python, React and SQL, with automated tests and CI/CD, and I currently run the website and booking system for a transfer company. Over two years in health and social care taught me to stay calm under pressure, explain things clearly to non-technical people and keep accurate, confidential records. Full UK right to work and available immediately.

KEY SKILLS

IT Support & Security

- Windows, Microsoft 365 (Outlook, Teams, Excel), user support
- Ticket handling, troubleshooting and escalation
- Linux (Mint) and Bash command line, Git
- Phishing detection, secure login (JWT, bcrypt), GDPR awareness
- Data Security and Protection trained
- Clear, patient communication with non-technical users

Development

- Python, JavaScript/TypeScript, SQL, HTML/CSS, Java, Solidity
- React, Flask, REST APIs, Tailwind CSS, Vite
- scikit-learn, spaCy, PostgreSQL/SQLite
- Testing: pytest, Vitest, Jest, Truffle
- GitHub Actions CI/CD, Vercel, Render, GitHub Pages
- Currently studying: Azure Fundamentals (AZ-900)

PROJECTS

AI Career Recommender (dissertation) | **Python, Flask, React, scikit-learn** — *ai-career-recommender-neon.vercel.app*

- Hybrid machine-learning recommender (content-based + collaborative filtering) reaching Precision@6 of 0.83 across 51 UK careers.
- CV parsing with spaCy, free learning links for skill gaps, live job adverts from the Reed API and a phishing-link checker.
- JWT login, bcrypt hashing, rate limiting and security headers; pytest suite and GitHub Actions; deployed on Render and Vercel.

Freelance Escrow DApp | **Solidity, React, ethers.js** — *alexrajdhami.github.io/freelance-escrow-dapp*

- Ethereum escrow with factory pattern, state machine, role-based access and reentrancy guard; deployed on the Sepolia testnet.
- 16 smart-contract tests covering every role and payout; CI pipeline tests the contracts and frontend before deploying.

Synth – online clothing store | **HTML, CSS, JavaScript** — *alexrajdhami.github.io/Synth*

- Responsive shop with search, filters, wishlist, cart with promo codes and a validated checkout; 16 unit tests.

Lumière Studio – photography website | **React, TypeScript, Tailwind** — *alexrajdhami.github.io/photography-portfolio*

- Photographer template with filterable gallery, accessible lightbox and booking form; images optimised from 29 MB to 3 MB.

EXPERIENCE

Web Developer & Booking Administrator | **Tenerife Trusted Transfers** (freelance, remote) — *Sep 2026 – Present*

- Manage the company website, transfer booking and ticketing system, admin dashboard and customer records.
- Handle booking tickets and customer enquiries, resolving booking and technical issues and escalating where needed.
- Create website content and social media updates to support bookings and customer communication.

Care Assistant | **Caremark; Avant Health Care** — *May 2024 – Sep 2026*

- Delivered person-centred home care, recording medication (MAR) and notes accurately on digital care systems.
- Communicated calmly with clients, families and coordinators; followed safeguarding and data-protection procedures.

Kitchen Assistant | **Shere Khan Restaurant** — *Dec 2023 – May 2024*

EDUCATION

BSc (Hons) Computer Science | **University of East London** — *Graduated 2026*

- Software development, databases and data management, system design, hybrid and blockchain app development.

Higher Secondary Education (+2) | **Sushma Secondary School, Nepal** — *2022*

CERTIFICATIONS & TRAINING

- **Data Security and Protection** — Better Security, Better Care, 2026
- **Care Certificate (Knowledge), Standards 1–15** — Social Works Ltd, 2024
- **Level 2 Certificate in Medication Handling & Administration (RQF)** — Highfield, 2024
